Step 3: To determine your tier level, identify the “Base Transportation Charges Amounts (monthly)” row highlighted in yellow. In this example, row 3 is highlighted. This means you are on tier 3 for all services. This is only showing the *earned discount* percentage for Priority Overnight. This does not show the *base discount*. See below on how to match this against the Exhibit A in FAScnet.com, which shows both discounts.

- Please note, base transportation charges here are showing as *monthly* transportation charges. Your Exhibit A shows base transportation charges as an *annualized* amount. To calculate annualized transportation charges, please multiply the value shown by 12.
- If you have more than one store to manage, click the “Add an Account” link to register additional accounts.
